HARVEST NOTES:

The 2013 growing season was early, even, and excellent! The early bud break and consistently moderate temperatures throughout spring and summer resulted in exceptional vine health and optimal ripening. We were able to take our time planning vineyard picks to ensure the highest

phenolic profiles.

VINEYARD: Estate - located at the winery, faces west from

the side of Howell Mountain and has a slope averaging 22%. The soil is composed of "Tuff" a volcanic ash, allowing the vineyard to drain

quality fruit with complex flavors and refined

very well.

Haymaker - An eastern-facing mountain vineyard, located in a frost free zone between the valley floor and mountain top with ancient

marine sedimentary soils.

WINE DESCRIPTION: Black with ruby edges. Expressive, profound

aroma with numerous red, blue, black fruits, black and jasmine tea. The mouth is soft, opulent, blueberry, blackberry, strawberry, and currant with notes of espresso. A complex

and hedonistic wine.
